

MAXICUT[®] ULTRA[™]

PRODUCT INFORMATION

ULTRA PROTECTION

HIGH CUT RESISTANCE & DEXTERITY

- 360° breathability means they can be worn comfortably all day
- Nitrile micro-cup finish allows for a controlled grip in dry and oily conditions
- Reinforced thumb joint provides increased durability

PRODUCT DESCRIPTION

MAXICUT® ULTRA™

Certain tasks require higher cut protection levels to help prevent lacerations and other hand injuries. MaxiCut® Ultra™ provides EN 5/ANSI 3 cut protection. The superior grip in dry and oily conditions in addition to maximum dexterity and comfort help further reduce injury risks and increase worker compliance.

Handling Glass Panels, Ceramics, Metal Sheets, Corrugated Sheets, & Plastic Injection Molds

Metal Fabrication

Construction

Automotive

Aviation

Non-Deburred, Sharp, & Small Parts Handling

Primary, Secondary, & Final Assembly

Maintenance & Repair

Paper Mill

PERFORMANCE

ATG TECHNOLOGY MAKES IT HAPPEN

CUTtech® – Innovative fibers we source our base ingredients to develop our own unique high performance yarns and fibres that offer cut protection while maintaining high levels of comfort.

ERGOtech®

- **Form, fit and feel** - mimics the "hand at rest", reducing hand fatigue and increasing comfort.
- **Latest knitting technology** - utilized to produce smooth and rounded fingertips, improving fingertip sensitivity
- **Consistent liner penetration** - from the nitrile, leaving only the soft liner resting against the skin

All ATG Gloves are laundered before they are packaged making them clean and skin safe. They are REACH compliant, certified by the Oeko-Tex Association, and accredited by the Skin Health Alliance.

SELECTING THE RIGHT GLOVE FOR THE JOB

- Dotted palms provide increased abrasion resistance, while palms without dots are silicone free.
- ¾ dipped gloves will extend coating to just beyond the knuckle on the back side, providing enhanced protection
