SPORTY RIMLESS DESIGN

WITH GREAT FIELD OF VISION AND
A WIDE AREA OF PROTECTION

Q-Vision by Bouton® Optical

These rimless safety glasses offer great field of vision with a unique, sporty temple design. The co-injected rubber temple ends provide an excellent grip. A flexible nose bridge offers a comfortable fit for all face shapes and sizes. The dielectric frame is non-conductive and protects workers who work with electricity everyday. FogLess™ lens coating comes as a standard (except on clear AR lens) to keep your lenses and vision clear.

THE RIGHT FIT & LENSES FOR YOUR WORKING ENVIRONMENT

FEEL BETTER

Great field of vision with a unique, sporty temple make Q-Vision the perfect choice for a round head size.

FEATURES

Sporty rimless design

Dielectric, non-conductive frame

Co-injected rubber temple ends

Wide area of protection

Flexible nose bridge

9.75 base curve lens

Meet ANSI Z87.1+ and CSA Z94.3 requirements

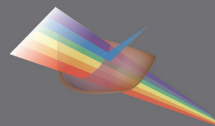

SEE BETTER WITH ADVANCED LENS TECHNOLOGIES

Bouton® Optical offers you the right lenses for your working environment. As a basic, we start with Anti-Scratch and Anti-Fog which is standard on many of our glasses. We offer special treatments to extend the life of your eyewear while helping you see better by filtering light and reducing glare.

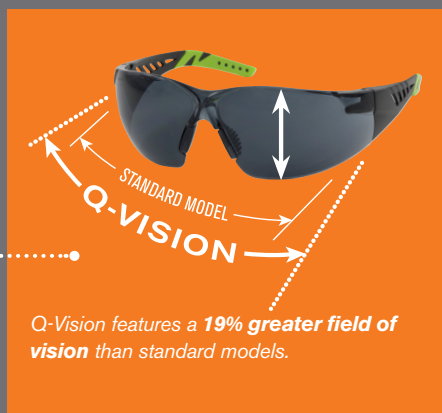

ANTI-REFLECTIVE: REDUCE REFLECTION AND GLARE

Anti-Reflective lens coating will reduce reflection and glare, which can be particularly noticeable when working indoors, or in conditions with multiple light sources.

I/O BLUE: ALLEVIATE DIGITAL EYE STRAIN

Bouton Optical's Indoor/Outdoor Blue Lens is a proprietary engineered lens that combines a slight yellow tint and a mirror coating, working in tandem to alleviate and help to prevent digital eye strain.

ITEM NUMBER	TEMPLE	LENS	COATING
250-36-0020	Black / Burgundy	Clear	Anti-Scratch/Anti-Fog
