

ANTI-FOG
DUAL LENS
TECHNOLOGY

THE REACTION YOU ARE LOOKING FOR

- Dual Lens system delivers the ultimate anti-fog protection for any work environment
- Low profile design enables use with head protection
- Foam padded surface provides a comfortable seal

DUAL LENS DESIGN

FOR ULTIMATE ANTI-FOG PROPERTIES

Reaction by Bouton® Optical

Reaction safety goggles feature a unique Dual Lens system that will prevent fogging. By using two lenses, the Reaction creates a physical separation between the ambient temperature and the worker's body temperature. This enables the Reaction Goggle to more efficiently resist the effects of temperature and humidity, and virtually eliminate fogging.

THE RIGHT FIT & LENSES FOR YOUR WORKING ENVIRONMENT

FEATURES

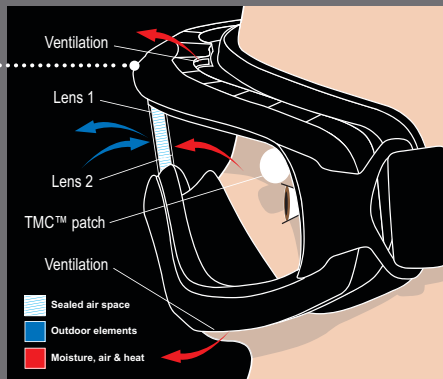

Indirect ventilation provides protection from liquid splash, while allowing breathability

Dual Lens technology prevents fogging by separating the air temperature from worker's body heat

Low profile design is compatible with most head protection

Available with either an elastic fabric headband or a neoprene strap

Foam padded surface provides a comfortable seal

LENS OPTIONS FOR YOUR ENVIRONMENT

Bouton® Optical provides the right lenses for your working environment. We start with Anti-Scratch and Anti-Fog as a standard on many of our glasses. For the Bouton® Reaction, the following lens tints are available:

CLEAR LENSES

Provide 90% visible light transmission (VLT), ideal for indoor workers and low light conditions

GRAY LENSES

Provide 12% VLT, significantly reducing the sun's glare and ideal for outdoor workers

ITEM NUMBER	LENS	COATING	FRAME	HEADBAND
251-65-0020	■ Clear	Anti-Scratch/Anti-Fog	■ Gray	Elastic
251-65-0020-RHB	■ Clear	Anti-Scratch/Anti-Fog	■ Gray	Neoprene Rubber
251-65-0021-RHB	■ Gray	Anti-Scratch/Anti-Fog	■ Gray	Neoprene Rubber

Neoprene strap provides resistance to water, gas, many oils, solvents, and moderate chemicals

Elastic fabric headband is more comfortable
