

STOP THE SPREAD

The best way to help prevent the spread of bacteria and germs is by washing your hands with soap and water. If these are not available, Health Canada recommends the use of an alcohol-based hand sanitizer containing at least 60% alcohol.¹

DYNA-SAN GEL HAND SANITIZER

- ▶ 70% USP food grade alcohol safely kills harmful bacteria and germs.²
- ▶ Contains aloe vera and vitamin E to soothe and moisturize skin once alcohol evaporates.
- ▶ Multiple formats available, including portable flip cap bottle for convenience.
- ▶ Health Canada registered hand sanitizer.
