

Leaders in PPE and Hand Protection

SAFETY PRODUCTS OVERVIEW / CANADA

PIP Canada Ltd.

www.pipcanada.ca

A Leading Provider of Innovative Safety Solutions

Each day, we seek to develop, train and provide our customers with innovative PPE that helps keep workers safer, more comfortable and more productive. We work with our distributor partners to deliver best-in-class customer experiences by providing a comprehensive product offering, world-class sales tools and efficient processes.

Our local Canadian manufacturing facilities enable us to provide safety solutions that are tailored to exacting customer needs. These factories work with our team of experienced product managers and specialists to ensure the highest level of product performance and proprietary technologies that are first-to-market.

PRODUCTS & PROGRAMS THAT SUPPORT YOUR BUSINESS OBJECTIVES

We are committed to bringing to market PPE that meets all applicable safety regulations and/or standards required in Canada, the United States, Europe and Latin America. PPE that you can place your trust in and that provides the best possible comfort, fit, and value.

But bringing you the best doesn't stop there. Our dedicated team located across Canada will ensure that you receive expert support enabling you to conduct trainings and risk assessment in the workplace, in addition to industry-leading customer service.

Hearing Protection

Because hearing loss is gradual, many are unaware of the damage. For that reason, it's critical that hearing protection is used in industrial settings.

- ▶ Corded, uncorded, and metal detectable options
- ▶ Disposable and reusable formats
- ▶ Full headband or cap mounted

Fall Protection

To succeed in this unforgiving category, you need to be cognizant of your ABCDs.

- ▶ **A**nchorage products that provide a secure connection to structures, thus allowing an attachment point
- ▶ **B**ody wear worn by the user, which includes harnesses as well as other personal protective equipment
- ▶ **C**onnecting devices that link the body wear to the anchorage, critical to the system and usually energy absorbing
- ▶ **D**escent and rescue products that form a key component of any rescue plan in order to ensure a timely response
