BASE LAYER HEATED VEST

# REVOLUTIONARY HEATING TECHNOLOGY

- Designed to warm and maintain core body temperature, the breathable soft-shell material is an ideal base layer providing lightweight warmth, comfort, and versatility
- Flexible heating panels built into the chest and back provide long lasting, reliable warmth at the press of a button
- Active fit one size fits all vest includes two-way locking Velcro straps, easy to adjust for a secure, comfortable fit for any body type

**PC300HV100U**

**LONG-LASTING HEAT**

**LIGHTWEIGHT, ACTIVE FIT**

- > Remote control operation with multiple heat settings

# LONG-LASTING HEAT / LIGHTWEIGHT, ACTIVE FIT

**BOSS THERM™ HEATED VEST** is designed to provide long-lasting relief from winter weather conditions. With three available on demand heat settings at the press of a button. The durable 5V rechargeable battery keeps you working with fast and effective heat to warm the chest and back in seconds.

## RECHARGEABLE 5V BATTERY

- > Multi-step safety system ensures protection from short circuits

## ACTIVE FIT

- > Easy to adjust, two way locking Velcro provides a secure comfortable fit

## WIRELESS REMOTE

- > Control 3 heat settings with the included wireless remote

- > Easy care machine washable 50+ wash cycles

## REDUCE THE RATE OF COLD STRESS INJURY

### CONVENIENT EASY ACCESS POWER

- > Revolutionary heating technology at the press of a button, with three available heat settings
- > Versatile lightweight base layer that provides reliable warmth
- > Promotes blood circulation, and provides relief for muscle pain
- > Designed to be worn over a thermal garment or T-shirt

## 3 HEAT SETTINGS WITH EASY ACCESSIBILITY

With three separate settings, choose your preferred temperature range, LOW HEAT indicated by the light blue color uses 25% of the vest power for temperatures up to 32°C (90°F) for up to 8 hours, MEDIUM HEAT will show up white, using 50% of the vest power for temperatures up to 46°C (115°F) for up to 5 hours, or the HIGH HEAT temperature range indicated by the red color, for maximum warmth up to 57°C (135°F) for 3+ hours.

EFFECTIVE HEAT FOR UP TO **8 HOURS** ON A SINGLE CHARGE
