

INDUSTRIAL WORKERS ARE UPGRADING TO CSA TYPE 2 HEAD PROTECTION ARE YOU?

**85% OF ALL HEAD IMPACTS OCCUR
LATERALLY FROM THE SIDES, FRONT
OR BACK**

**60% OF HEAD INJURIES ARE DUE TO
FALLS FROM HIGHER LEVELS, OR ON
THE SAME LEVEL**

CSA Type 2 head protection is a priority for Canada's top construction companies, offering all-angle impact protection that helps reduce downtime and boosts worker confidence.

Along with the shift to CSA Type 2, other trends in head protection include:

- Chin straps that help to secure helmets during slips or falls
- Integrated accessories like earmuffs and visors for task-specific protection
- Custom logos for job site security and brand visibility
