ABOUT US

VISION, MISSION, & VALUES

ABOUT US

PIP GLOBAL

Management reinvests
in PIP expansion with
Audax Group in 2018.

Joe Milot & Wellson
Tao form a partnership
in 1984 and create
Protective Industrial
Products, Inc. (PIP)

Strategic acquisition of Dynamic Safety
International from Claude Roberge in
2019 to reinvent **PIP Canada Ltd.**

ABOUT US

PIP CANADA HISTORY

- **1980's** : Claude Roberge builds Arkon Safety to \$80 million and sells to North.
- **2003** : PIP Global enters a partnership with Marigold to sell gloves in Canada.
- **2008** : Claude comes out of retirement to start Dynamic in Laval, Quebec. He brings back John Greer, as well as other key members from Arkon. Today, twenty-one employees still share this deep, connected history and experience.
- **2011** : PIP Global sets up its own division in Canada. Three seasoned glove industry experts are hired, and a warehouse was set up in Bolton, Ontario.
- **2018** : Dynamic had grown and was looking to expand. Meanwhile, PIP was looking to increase operations and manufacturing in Canada. Claude and Joe quickly strike up a friendship and a deal based on their similar visions.
- **2020** : Dynamic and PIP officially joined forces as the new PIP Canada. Investments are made of more than \$1 million in robotics, plant upgrades and a new 50,000-square-foot warehouse in Laval, Quebec.

2008 : Claude reunites the team.

2019 : Investments in manufacturing.

2020 : Head office in Laval, QC.

ABOUT US

PIP CANADA TODAY

- PIP Canada is now **Canada's largest manufacturer of PPE**, and one of the largest manufacturers of compliant hard hats in the world.
- We employ over **175 employees in Canada**, and manufacture in our factories located in both Laval, Quebec and Mississauga, Ontario.

VALUE PROPOSITION

EXPERTISE, QUALITY, AND SERVICE

EXPERTISE

- The safety market is constantly evolving. As a company with more than thirty-five years of experience in this market, it's our duty to utilize our expertise to help educate others and identify the optimal resolution for customers.
- Whether it's offering product-specific training, providing updates on the newest safety technologies and industry standards, or going the extra mile to ensure the right solution is found, we are the go-to source for all your safety needs.

VALUE PROPOSITION

EXPERTISE, QUALITY, AND SERVICE

QUALITY

- Quality is woven into every element of the PIP Canada experience. Each day, we develop and provide our customers with innovative PPE and world-class sales tools that keep workers in all markets safer, more comfortable and more productive.
- Our manufacturing centers in both Laval and Mississauga utilize the latest in robotics to ensure products meet precise specifications.

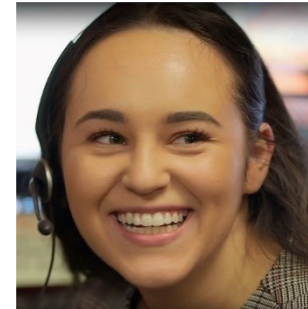

VALUE PROPOSITION

EXPERTISE, QUALITY, AND SERVICE

RELENTLESS FOCUS ON CUSTOMERS

- We are dedicated to serving our distributor partners better than anyone else in the market. Crucial to this charge is understanding the needs of our customers while continuing to exceed expectations.
- This notion is incorporated into everything from field support and customer service to our operational processes. We are committed to improving and delivering upon a level of service that is second to none.

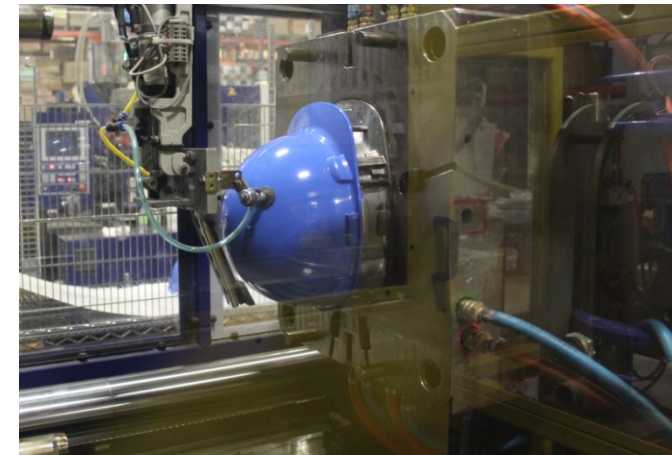

VALUE PROPOSITION

EXPERTISE, QUALITY, AND SERVICE

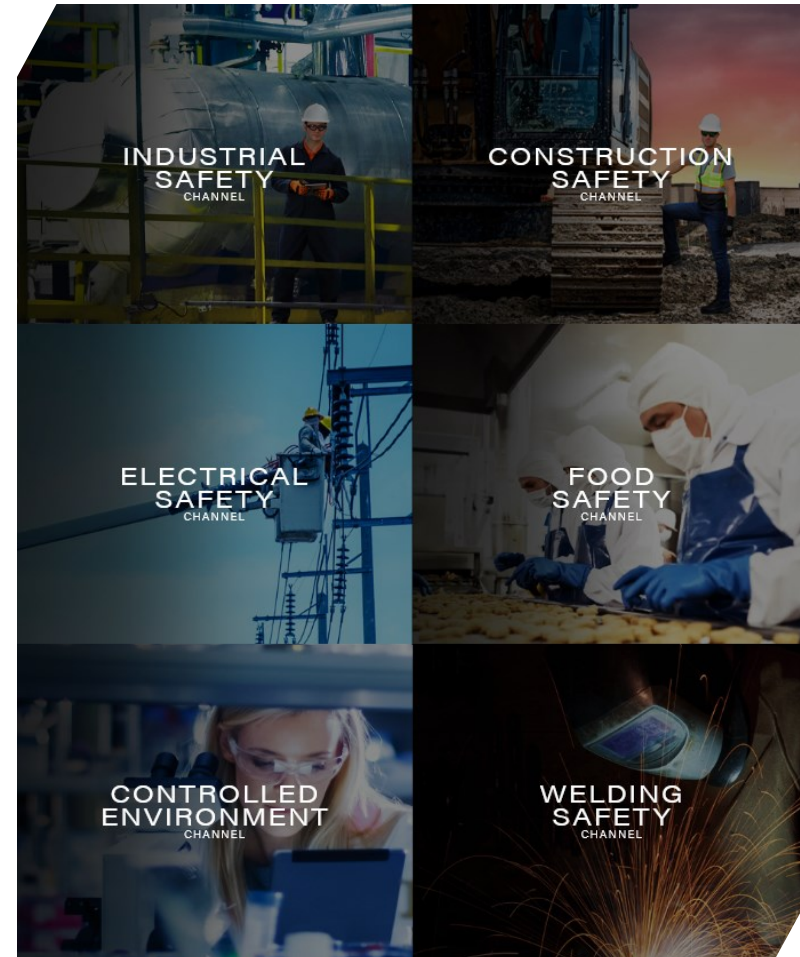

SERVICE : PRODUCTION INVESTMENTS

- Increased from 4 injection machines to 11 producing hardhat shells and components.
- Increased from 2 assembly robots to 5 producing suspension assemblies.
- Added a second machine producing visors.
- Established a dedicated assembly line for Rocky™ hard hats, earmuffs & bump caps.
- Investment value greater than \$1 million CAD.

MARKETS WE SERVE

- Our salesforce expertise serves our distributor partners across all markets by collaboratively identifying and providing tailored safety solutions that don't just meet but exceed expectations.
- By working closely with distributor partners, we obtain a better understanding of their challenges and gain insights on how we overcome these challenges together to keep end-users safe and protected.

FIRST TO MARKET

- North American, and specifically Canadian, based manufacturing facilities enable us to provide safety solutions that are tailored to our markets' needs.
- These factories work with our team of product managers and field specialists to ensure the highest level of product performance, and secure proprietary technologies that support us being first to these markets.
