G-Tek®
PolyKor®

THINNER IS THE WINNER

Seventy percent of OSHA-reported hand injuries occur because workers were not wearing hand protection. This is often a direct result of the discomfort standard-weight cut glove liners cause. The new G-Tek® PolyKor® 21-gauge seamless knit cut gloves offer an ultra-lightweight solution that is so thin and breathable that it ultimately acts as a second skin. Featuring both an ANSI/ISEA 105-2016 A5 Cut Level with a nitrile foam coating and an ANSI/ISEA 105-2016 A4 Cut Level with a polyurethane coating, workers are able to choose the right glove to safely complete their tasks with precision and ease.

|..... ULTRA THIN & BREATHABLE **THICKNESS** THICKER & LESS DEXTEROUS|

APPLICATIONS

- > HANDLING AND ASSEMBLY OF SMALL PARTS AND MATERIALS
- > METAL FABRICATION
- > PARTS CLEANING
- > MECHANICAL EQUIPMENT MAINTENANCE AND REPAIR
- > MEDIUM TO HEAVY FASTENING & ANCHORING

PREMIUM BLENDED 21G SHELL

Provides excellent dexterity, superior tactile sensitivity and ultimate cut protection

A5 CUT PROTECTION

GP16351
XS-2XL

- Seamless construction offers increased comfort and breathability
- Foam nitrile coating is breathable, durable, and designed with an open cell structure that disperses fluids on contact for improved grip
- Touchscreen compatible to allow the user to operate a device without removing gloves
- Reinforced thumb crotch provides longer wear life and increased protection
- **Latex Free**

A4 CUT PROTECTION

GP16541
XS-2XL

- Seamless construction offers increased comfort and breathability
- Polyurethane coating takes on the surface properties of the glove liner providing a tactile grip in dry and slightly oily conditions
- Touchscreen compatible to allow the user to operate a device without removing gloves
- Reinforced thumb crotch provides longer wear life and increased protection

REINFORCED THUMB CROTCH

PROVIDES LONGER
WEAR LIFE
AND INCREASED
PROTECTION
