

**Model: Rocky
HP141R**

Description:

The Rocky hardhat (HP141R) has a European ergonomic design with fluid curves. It is ideal for confined-space and rescue operations. The Rocky hardhat does not have a rain trough, but it comes with accessory slots. The absence of a front peak provides a none-obstructive vision up-wards. The Rocky is made of a special PC/ABS material for lighter-weight. It comes with a ratchet adjustment of a nylon-webbing 4-points suspension. The Rocky is supplied with a 4-point chin-strap. The Rocky hardhat is ideal for environments where vertical impacts on the head is a risk.
